I Admission Policy

Graduate School of Science and Engineering

【Information Science and Technology】

In light of advancing globalization, the Department of Information Science and Technology will implement education in a high-quality research environment, based on the policy of producing talented masters (in Information Science and Engineering) who have a deep level of fundamental academic knowledge and advanced research abilities in their fields of specialization. The masters will acquire superior levels of specialization and the ability to work as independent researchers, while also being educators on the global stage.

Master's Program

(Information Science and Technology)

◆ What We Expect of Our Students

- Basic knowledge of their field of specialization and the desire to study more in depth.
- The desire to make use of their knowledge of their field of specialization, to use logical thinking to explore the natural sciences and proactively perform research and development, and to contribute to society.
- The ability to think and act on their own accord.
- The ability to cooperate with others, and possess a strong sense of ethics.
- Deep interest and applied skillset in both their field of specialization and a variety of other fields.
- Desire to become a scientist or technical expert with a global perspective who will perform work at an international level.

◆ Basic Selection Policy

Applicants will be selected via the following methods in order to conduct a comprehensive and multi-faceted evaluation of applicants who meet “What we Expect of Our Students” .

- (1) General Admissions: (Omitted – not applicable to international students)
- (2) Working Students: (Omitted – not applicable to international students)
- (3) International Students: Comprehensive decision based on the results of an interview and oral examination, and a review of documents
- (4) Recommendation-Based Entrance Examination: (Omitted – not applicable to international students)

III Schedule

Graduate School of Science and Engineering 【Information Science and Technology】

Category etc.		Date
April 2026 Applicants [Recommendation-Based Entrance Examination]	Application Period	June 26, 2025 – July 1, 2025
	Examination Date	July 12, 2025
	Notification of Results	July 22, 2025, 11:00 (planned)
April 2026 Applicants [First Examination] and October 2025 Applicants International Students	Submission Period of Admission Eligibility Documents for Screening (Applicable persons only)	June 17, 2025 – June 20, 2025
	Notification Date of Admission Eligibility (Applicable persons only)	July 2, 2025
	Application Period	July 23, 2025 – July 30, 2025
	Examination Date	August 26, 2025
	Notification of Results	September 3, 2025, 11:00 (planned)
April 2026 Applicants [Second Examination] General Admissions	Submission Period of Admission Eligibility Documents for Screening (Applicable persons only)	October 20, 2025 - October 22, 2025
	Notification Date of Admission Eligibility (Applicable persons only)	October 31, 2025
	Application Period	November 11, 2025 – November 13, 2025
	Examination Date	November 28, 2025
	Notification of Results	December 8, 2025, 11:00 (planned)

IV Admissions for April 2026 [Recommendation-Based Entrance Examination] (omitted)

V April 2026 Applicants [First Examination] and October 2025 Applicants, April 2026 Applicants [Second Examination] Graduate School of Science and Engineering [Information Science and Technology]

1 Application Eligibility

(1) General Admissions (omitted)

(2) Working Students (omitted)

(3) International Students

This refers to individuals who do not hold Japanese nationality and fall under any of the following categories or are expected to fall under any of the following categories by March 2026 (for April 2026 admission applicants) or September 2025 (for October 2025 admission applicants).

However, those who have graduated from a Japanese university (including those who are expected to graduate) and do not hold Japanese nationality are not eligible to apply for the international student entrance examination.

- ① Individuals who have completed 16 years of school education in a foreign country.
- ② Individuals who have completed a 16-year course of study according to the education system of a foreign country by taking courses through distance learning offered by a foreign school of that country, while being in Japan.
- ③ Individuals who have completed a course offered by a foreign university at an educational institution in Japan that has been accredited in the education system of said foreign country and separately designated by the Minister of Education, Culture, Sports, Science and Technology of Japan (hereinafter referred to as MEXT Minister). This is limited to courses whose completion is considered equivalent to completing 16 years of school education in said foreign country.
- ④ Individuals who hold a degree equivalent to a bachelor's degree at a foreign university or school by completing a curriculum of 3 years or more. Individuals who have completed a curriculum by taking courses offered through distance learning by the foreign institution in Japan or have completed a curriculum at an educational institution in Japan that has been accredited by the education system of said foreign country and, as designated in ③, are also permitted. This is only applicable to foreign universities or schools whose education and research have been evaluated comprehensively and have been certified by the government or responsible agency in said foreign country or those that have been separately designated as equivalent ones by the MEXT Minister.
- ⑤ Individuals who have completed a 15-year school education program in a foreign country and have also obtained the required credits with grades deemed excellent by the graduate school of this university.
- ⑥ Individuals who have completed a course offered by a foreign university at an educational institution in Japan, which has been accredited by the education system of the said foreign country and separately designated by the MEXT Minister. The graduate school of this university must recognize the completion of the course and deem the grades achieved as excellent. This is limited to courses whose completion is considered equivalent to completing 15 years of school education in said foreign country.
- ⑦ A person aged 22 or above who has been recognized as having a level of academic ability equal to or higher than average university graduates by the Preliminary Eligibility Screening of the graduate school as explained below.

Note Lectures are mainly given in Japanese.

2 Admission Eligibility Screening (Applicable persons only)

International students who wish to apply based on Application Eligibility (3) ⑤, ⑥, ⑦ must undergo individual admission eligibility screening via documentation beforehand. Please submit the required Admission Eligibility Screening documents (listed below) in one package to the Admissions Office, Faculty of Engineering, Yamagata University by the designated deadline.

Note Individual admission eligibility screening is not required for those who are expected to graduate from a university in March 2026 (or October 2025) and those who have graduated from a university.

【Admission Eligibility Screening Documents】

- Application for Admission Eligibility Screening (入学資格審査願) (attached document in the Japanese version of the recruitment guidelines)
- Graduation certificate from the last school you graduated from (original)
- Transcript of results from the last school you graduated from (to be both produced by the school and provided in an envelope sealed by the school unopened)

Note Please attach a Japanese or English translation if the above are in a language other than these.

- Entrance Examination Application Eligibility Screening Record (入学試験出願資格認定審査調書) (attached document in the Japanese version of the recruitment guidelines)
- A return envelope (commercially available long-style No. 3 - 23.5 cm×12 cm) with your postal code, address and name written, and with a ¥110 stamp applied.
- Paper offprints (for applicants with research achievements)

Note Please attach a Japanese or English translation when submitting documents from a foreign school or institution that were created in a language other than Japanese or English.

Place of Submission for Admission Eligibility Screening Documents
Admissions Office, Faculty of Engineering, Yamagata University
4-3-16 Jonan, Yonezawa City, Yamagata Prefecture, 992-8510, Japan
Tel: +81-238-26-3013

Two documents, “入学資格審査願” (*Application for Admission Eligibility Screening*) and “入学試験出願資格認定審査調書” (*Entrance Examination Application Eligibility Screening Record*) must be downloaded from the website of the 山形大学工学部 (Yamagata University, Faculty of Engineering), 大学院・理工学研究科／有機材料システム研究科 (*Graduate School of Science and Engineering / Graduate School of Organic Materials Science*) (<https://www.yz.yamagata-u.ac.jp>) in Japanese. The documents can be found under “各種募集要項” (*Various Recruitment Information*) on the “大学院受験生の方” (*Graduate School Applicants*) page. The documents must be printed on A4-size white paper, single-sided, filled out and submitted.

Note International students who wish to apply based on Application Eligibility (3) ⑤, ⑥, ⑦ .

For prospective applicants who do not have a university degree, such as graduates from technical schools, junior colleges, specialized training colleges, and various other types of schools, as well as those who graduated from foreign universities in Japan [excluding those who meet the requirements of (3)], foreign school graduates, etc., they must undergo individual admission eligibility screening in advance by our research department.

Note that this eligibility screening can be replaced with the “Notification of Admission Eligibility for Entrance Examinations” that was previously issued by our research department. If you apply for admission through the “Admission Eligibility Screening”, please attach a copy of the notification to your application documents.

Category	Admission Eligibility Screening Document Submission Period	Notification Date of Admission Eligibility
April 2026 Applicants [First Examination] and October 2025 Applicants	June 17, 2025 – June 20, 2025	July 2, 2025
April 2026 Applicants [Second Examination]	October 20, 2025 – October 22, 2025	October 31, 2025

The reception is open from 9:00 to 16:30, Monday through Friday

3 Application Period

Category	Application Period
April 2026 Applicants [First Examination] and October 2025 Applicants	July 23, 2025 – July 30, 2025
April 2026 Applicants [Second Examination]	November 11, 2025 – November 13, 2025

Applications are accepted Monday through Friday.

The reception is open from 9:00 to 16:30

Applications will not be accepted after the above deadline, so when posting your application please ensure there is enough time for it to arrive (the deadline also applies for posted applications).

4 Application Procedures

Applicants for admission must consult with their desired academic advisor beforehand and submit the application documents by the designated deadline to the Admissions Office, Faculty of Engineering.

Applicants who choose to send their application documents by mail should use registered mail. They should also write the following words in Japanese in red ink on the envelope: "大学院理工学研究科博士前期課程 (4月入学[or 10月入学]) 入学願書在中" [meaning *Application for Master's Program in the Graduate School of Science and Engineering (April/October Admission)*].

Place for application submission:

Admissions Office, Faculty of Engineering, Yamagata University
4-3-16 Jonan, Yonezawa City, Yamagata Prefecture, 992-8510, Japan
Tel:+81-238-26-3013

Application Documents	Precautions For Document Preparation
Application for Admittance (入学願書) Photo Form (写真票) Examination Voucher (受験票)	<ul style="list-style-type: none"> ○ Fill in all necessary areas on the forms attached to this document. ○ For foreigners, please fill in "Name" either in Kanji or in the Latin alphabet in the order of last name (family name), first name (given name), then middle name. ○ In the section 「父母等の住所・氏名」, for individuals whose parents or guardians reside outside of Japan, please provide their name and address in the foreign country. Only one parent or guardian's information is needed. ○ For the section 「履歴」, foreign student applicants should fill in their education history starting from elementary school. ○ In the area indicated on the Photo Form, please attach a photograph (4cm×3cm) of your upper body taken in the past 3 months. Please ensure your head is uncovered and that you are facing forward. ○ When writing the names of desired supervising instructors, please see the Yamagata University Faculty of Engineering / Graduate School of Science and Engineering / Graduate School of Organic Materials Science website (https://www.yz.yamagata-u.ac.jp). More details can be found in the “Teaching Staff for the Master's Program (博士前期課程担当教員表)” under the “Prospective Students (大学院受験生の方)” menu.
Certificate of Graduation or Certificate of Expected Graduation	<ul style="list-style-type: none"> ○ Created by either the dean of the school or by the president of the university you graduated from. ○ For individuals who graduated from a foreign university or school and are unable to submit the original documents, please submit a copy and submit it together with a certificate of authenticity from the nearest embassy or consulate. ○ Please attach a Japanese or English translation when submitting documents from a foreign school or institution that were created in a language other than Japanese or English.

Application documents	Precautions For Document Preparation
Graduate School Transcript of Results	<ul style="list-style-type: none"> ○ The original document must be prepared and sealed by the applicant's university or school president (dean) and submitted. If you graduated from Yamagata University, you do not have to seal the document. ○ For individuals who graduated from a foreign university or school and are unable to submit the original documents, please submit a copy and submit it together with a certificate of authenticity from the nearest embassy or consulate. ○ Please attach a Japanese or English translation when submitting documents from a foreign school or institution that were created in a language other than Japanese or English.
Grades of External Tests, etc.	(omitted)
Bachelor's Degree Certificate	<ul style="list-style-type: none"> ○ Individuals who have obtained a bachelor's degree (including degrees equivalent to a bachelor's degree) from a foreign university or school should submit a degree certificate. ○ It should be created by either the dean of the school or by the president of the university the individual graduated from. ○ For individuals who graduated from a foreign university or school and are unable to submit the original documents, please submit a copy and submit it together with a certificate of authenticity from the nearest embassy or consulate. ○ Please attach a Japanese or English translation when submitting documents from a foreign school or institution that were created in a language other than Japanese or English.
Certificate of Payment (to be attached to the "Certificate of Payment Attachment Form" and submitted)	<p>○ Examination Fee: ¥30,000 Applicants who will receive a government-sponsored scholarship for foreigners do not have to pay this examination fee. Please submit a copy of documentation that can be used to confirm that you are the recipient of a Scholarship for International Students.</p> <ol style="list-style-type: none"> 1. Payment Period For the First Entrance Examination: July 17, 2025 - July 30, 2025 For the Second Entrance Examination: November 4, 2025 - November 13, 2025 2. Method of Payment Make the payment using a credit card or a convenience store's multimedia terminal. For more information, see "Payment of Examination Fee" on page 11 of this manual. Requires payment of a separate commission fee. The commission fee will be borne by the applicant. 3. Submitting the Certificate of Payment After completing the payment, cut off the "Certificate of Payment (収納証明書)" section from the printed payment sheet (or bring the "receipt" if you made the payment at FamilyMart), and <u>attach it to the "Certificate of Payment Attachment Form (収納証明書はり付け台紙)"</u> <u>Submit it along with the other necessary application documents.</u> 4. Examination Fee Refund Examination fees will not be refunded except for the reasons listed below: <ol style="list-style-type: none"> (1) If the examination fees were paid but you did not apply (including if you didn't submit the application documents etc. or if the application wasn't received) (2) If you mistakenly paid twice (3) If, after applying, your government-sponsored scholarship for foreigners is extended and you will enter our school If you wish to apply for a refund, please download the "Examination Fee Refund Application Document" from the URL below, fill in all necessary details, and submit it to the department below by March 31, 2026. The fee will be refunded after the details have been confirmed. https://www.yamagata-u.ac.jp/jp/entrance/faq/return/ Refund Requests: Admissions Office, Faculty of Engineering, Yamagata University, Tel: +81-238-26-3013 (Japanese language only)

Application Documents	Precautions For Document Preparation
Examination Voucher Return Envelope	<p>○ A return envelope (commercially available long-style No. 3 - 23.5 cm × 12 cm) with your postal code, address and name written, and with a ¥110 stamp applied. ※Make sure to include the building name and room number if applicable. ※We will send you a voucher with an assigned examination number and a guide to the examination. Please confirm the contents promptly upon receipt.</p> <p>However, if you apply by mail from outside Japan, submission of this envelope is not required. In that case, we will send the examination voucher and examination information document to the email address specified on the application form as an electronic file (PDF). Please confirm the receipt of the email and reply to us accordingly. Also, please be sure to print out the voucher.</p>
Label Sheet	<p>○ Fill out the designated label sheet with an address where you will definitely be able to receive the notification of results. ※Make sure to include the building name and room number if applicable. ※ The notice of acceptance will be sent by registered mail (to be received in-person). In case of failure to receive the mail, please follow the instructions on the notice of non-delivery and promptly request redelivery. Please note that after the holding period has expired, it will no longer be possible to receive the notice.</p>
Nationality and Residency Status Verification Document(s)	<p>○ Submit a copy of your residence card (both sides) or if you have registered your residence in Japan, submit a certificate of residence issued by the municipality where you are registered. If you have not registered your residence, submit a copy of one of the following: (a) your passport; (b) abstract of family register; (c) proof of citizenship in your home country.</p>

Note

If you have undergone Admission Eligibility Screening through either ⑤, ⑥, or ⑦ of Application Eligibility (3), there is no need to submit a Certificate of Graduation or Graduate School Transcript of Results. Instead, please submit a copy of the “入学試験に係る入学資格の認定通知書” (*Notification of Recognition of Admission Eligibility for Entrance Examination*) issued by our graduate school in Japanese.

5 Applicant Selection Methods

Based on the "Desired Student Qualities" stated in the Admission Policy, an academic ability test will be conducted to confirm whether prospective students have the basic academic ability in their field of specialization. Students will be asked to select the examination area based on the academic subjects they have studied. Please indicate the desired examination area on the application form.

[1] April 2026 Applicants [First Examination] and October 2025 Applicants

- (1) Examination for General Admissions (omitted)
- (2) Examination for Working Students (omitted)

(3) Examination for International Students

- ① Based on one of the three examination areas listed below that was indicated on the application form, the selection of applicants will be conducted using the results of the designated academic ability tests and document reviews. The examination area will correspond to that of the desired supervising professor indicated on the application form. Please check the "List of Professors In-charge of the Master's Program" in the "Application Form" section of the “4 Application Procedures” to see the examination area of your desired supervising professor.
- ② Test takers are not allowed to bring any unauthorized items into the examination room (refer to page 10 “VI Guidelines for Examinees”)

- ③ During the interview and oral examination, the use of computers or materials for explanation is not allowed. However, the use of the blackboard may be permitted during the examination at the request of the examinee or instructions from the interviewer.
- ④ Only English or Japanese may be used for the interviews and oral examinations.
- ⑤ Date and time of the interviews and oral examinations:

Date of Examination	Time of Examination	Examination
August 26, 2025	From 9:30am (30 minutes per person)	Interview and oral examination

【Mathematical Sciences】

Students will be assessed on their basic knowledge of "Mathematical Sciences" and will be asked questions regarding their research plan for graduate school. Additionally, students will be asked questions about their graduation research or equivalent exercises. For students who wish to take the examination in English, please contact the Yamagata University Faculty of Engineering Admissions Office (yu-kounyu@jm.kj.yamagata-u.ac.jp) at least one week before the application period start date.

【Informatics】

An interview and oral examination will be conducted about "Calculus" and "Linear Algebra". Additionally, students will be asked questions about their graduation research or equivalent exercises.

【Electronics】

An interview and oral examination will be conducted about "Electromagnetics" and "Circuits Theory". Additionally, students will be asked questions about their graduation research or equivalent exercises.

6 Examination Site

Faculty of Engineering, Yamagata University Examination Site
4-3-16 Jonan, Yonezawa City.

7 Notification of Results

Category	Date and Time of Examination Result Notification
April 2026 Applicants [First Examination] and October 2025 Applicants	September 3, 2025 at 11:00 (planned)
April 2026 Applicants [Second Examination]	December 8, 2025 at 11:00 (planned)

The examination registration numbers of those who have passed the examination will be posted on the websites of Yamagata University Faculty of Engineering / Graduate School of Science and Engineering / Graduate School of Organic Materials Science (<https://www.yz.yamagata-u.ac.jp>).

Those who have passed the examination will also be sent a written notification of their results on the day the results are announced.

The notice of acceptance will be sent by registered mail (to be received in person). In case of failure to receive the mail, please follow the instructions on the notice of non-delivery and promptly request redelivery. Please note that after the holding period has expired, it will no longer be possible to receive the notice.

8 Enrollment Procedures

Those who have passed the examination must perform the following enrollment procedures.

(1) Dates for Enrollment Procedures

Category	Date and Time for Enrollment Procedures
April 2026 Applicants [First Examination] and October 2025 Applicants	September 10- September 16, 2025
April 2026 Applicants [Second Examination]	December 19- December 23, 2025

The reception is open from 9:00 to 16:30 (not open Saturdays/Sundays)

(2) Location for Enrollment Procedures:

Admissions Office, Faculty of Engineering, Yamagata University
4-3-16 Jonan, Yonezawa City, Yamagata Prefecture, Japan, 992-8510

(3) Documents to submit

Details will be provided at the time of the notification of results.

(4) Enrollment Fee

Please pay the enrollment fee when you perform the other enrollment procedures.

Enrollment Fee: ¥282,000

(5) Important Notice:

If a student who has completed the enrollment procedure cancels their enrollment by March 31, 2026 for April 2026 applicants, or by September 30, 2025 for October 2025 applicants, the enrollment fee will not be refunded.

VI Guidelines for Examinees

1 Examination Voucher

- (1) Please ensure you bring your examination voucher on the day of the examination. It must be shown when you enter the examination area.
- (2) Please ensure you are always in possession of your examination voucher and follow any instructions given by staff members.
- (3) If you have forgotten your examination voucher on the day of the examination, please speak to the staff at the examination site and perform the necessary procedures to receive a temporary copy.
- (4) If you lose your examination voucher, please immediately contact the individual in charge of entrance examinations at Yamagata University's Faculty of Engineering.
- (5) The examination voucher will be required as part of admission procedures. Please ensure you maintain a copy of it until you receive your results.

2 Poor weather etc. may cause transport delays. Please confirm the weather and any effects it may be having on transport. Each applicant is responsible for taking suitable measures to be at the examination site on time by, for example, arriving at Yonezawa City the day prior to the examination.

3 Please ensure you arrive at the examination site 30 minutes prior to the start of the examination.

4 If you arrive late, please speak to the staff at the examination site.

5 If you arrive at the examination site more than 20 minutes late, you will not be allowed into the examination room.

6 If a transport accident/disaster occurs on the day of the examination, the examination start time may be changed.

7 Important information on written examinations:

- (1) During the examination, in addition to the examination voucher, the following items are allowed to be placed on the desk: pencils (mechanical pencils are also allowed), erasers, pencil sharpeners (excluding electric ones, large-sized ones or such made of knives), watches (excluding dictionaries, calculators, devices with indistinguishable functions, those with second hand ticking, kitchen timers or large ones), rulers, eyeglasses, handkerchiefs, tissues (taken out only from bags or boxes), and eye drops.
- (2) In the examination room, you are not allowed to borrow or share other people's belongings.

- (3) Leaving the examination room during the test is not permitted. If you become ill or have an unavoidable situation during the test, please raise your hand and follow the instructions of the supervisor.
- (4) The answers of individuals who are found to have engaged in dishonest conduct will be invalidated.
- 8 Before entering the examination room, all electronic devices must be turned off, including cell phones, smart phones, wearable devices (smartwatch, smartglasses, etc.), tablets, electronic dictionaries, IC recorders, earphones, music players, etc. For electronic devices with an alarm function, turn off the alarm setting and then turn the device off. During the examination, having any of these devices in your hands or on your body (rather than having them put away in your bag) may be deemed to be cheating. If earphones are found in your ears, they will be considered to be in use, which would be deemed to be cheating.
- 9 Wristwatch alarms may not be used during the examination.
- 10 Examinees whose examinations will go from morning through to the afternoon are advised to bring a packed lunch.
- 11 Examinees may not come by car or motorcycle on the day of the examination.
- 12 Only examinees are allowed into the examination building on the day of the examination.
- 13 The university cannot organize accommodation for examinees.
- 14 On the day of the examination you may be approached by individuals around the examination site or nearby stations etc. that offer to send you e-mails alerting you of your pass/fail status. Please be aware that these individuals are not university personnel, and the university cannot take any responsibility for issues that may arise if you use their services.
You may also be approached by individuals saying they are performing surveys who ask for your address and telephone number. These individuals are also unrelated to the university and may attempt to misuse your personal information. Please be cautious when dealing with them.

VII Advance Consultations for Applicants Who Wish for Special Consideration Regarding Examinations and Studies

Candidates who wish for special consideration to be made regarding their examination or studies due to illness, injury, or disability should consult with the Admissions Office, Faculty of Engineering, Yamagata University (Tel:+81-238-26-3013) 2 to 3 weeks prior to submitting their application for admittance.

Depending on the content of the consultation, prior preparations may be required so please consult with us as early as possible.

VIII Tuition Fees

Tuition fees are to be paid after you have enrolled.

Tuition Fees: ¥535,800 per year (estimated)

- Note**
- 1 Tuition fees have not yet been finalized, so this is only an estimate figure.
 - 2 If tuition fees are adjusted during your time at the school, the fees shall apply from the point they are adjusted onwards.
 - 3 Information on paying the fees shall be provided to you when the written notification of results is sent.

IX Additional Information

- 1 Personal information received from you when finalized the entrance examination will be used for the following purposes, and will not be disclosed to, provided to, or stored by any third party:
 - (1) For the purposes of selecting applicants
 - (2) For procedures related to enrollment
 - (3) For statistical purposes related to the entrance examination
 - (4) For procedural reasons during your time at the university
 - (5) For other reasons as required by the university
- 2 If any discrepancies are discovered in the documents that you submit to the university, your enrollment may be canceled even after you have been admitted.
- 3 Regarding Security Trade Controls
Yamagata University stipulates the Security Trade Control Guidelines for Yamagata University based on the Foreign Exchange and Foreign Trade Act, etc., and manages the technology provided and goods exported

from the university. In order to manage these exports, we may ask you to submit a declaration relating to the applicability of circumstances (designated types) that are strongly influenced by foreign governments and corporations.

If the regulations apply, the university may need to apply for a permit from the Ministry of Economy, Trade and Industry (METI), and as a result, technology provisions may not be implemented swiftly. Furthermore, if the application to METI is denied from the stance of maintaining international peace and security, the university may not be able to provide the technology in question as a result.

X Special Measures Regarding Teaching Methods (omitted)

XI Special Measures Regarding Teaching Methods (omitted)

XII Overview of Graduate School Graduate School of Science and Engineering

1 Organizational Structure of the School

The Graduate School of Science and Engineering consists of a two-year master's program and a three-year doctoral program that follows on from it.

Graduate School of Science and Engineering Master's Program	Science	
	Applied Chemistry, Chemical Engineering, and Biochemical Engineering	
	Information Science and Technology	
	Mechanical Systems Engineering	
	Architecture and Building Science, Design, and Management	

Graduate School of Science and Engineering Doctoral Program (Engineering)	Interactive Symbiosphere Sciences	
	Advanced Engineering	Applied Chemistry, Chemical Engineering, and Biochemical Engineering
		Informatics and Electronics
		Mechanical Systems Engineering
		Architecture and Building Science, Design, and Management

2 Teaching Staff for the Master's Program, etc.

Please check the Yamagata University Faculty of Engineering / Graduate School of Science and Engineering / Graduate School of Organic Materials Science website (<https://www.yz.yamagata-u.ac.jp>).

- Graduate School of Science and Engineering List of Teaching Staff for the Master's Program
