

April, 2, 2020

To New Students,

Congratulations to all of you, and your families, who are entering the Faculty of Engineering, the Graduate School of Science and Engineering, and the Graduate School of Organic Materials Systems at Yamagata University.

We would like to have congratulated you at the entrance ceremony, but the new coronavirus makes the situation more severe day by day, and we chose to cancel the entrance ceremony to prevent the spread of infection. It was a hard decision, but we would appreciate your understanding. Classes at the Kojirakawa Campus in Yamagata City will be held on the scheduled date via remote class, in order to prevent infection. However, the start date for the in person classes at the Yonezawa Campus in Yonezawa City will be delayed until April 20th. Depending on the situation, we may further change these plans, but please be assured that we are working together to prepare our faculty and staff to provide you with adequate education in a safe environment. If you have any questions or concerns, please contact your advisor, office or department.

During this crisis, engineering and its achievements support the world, in areas such as medicine, communications, machinery, materials, energy, food and more. The faculty and staff will all work to make your student life at Yamagata University fruitful, and a place where you can develop into productive members of society, who contribute to the development of engineering. We hope that you will grow and flourish here at Yamagata University's the Faculty of Engineering, the Graduate School of Science and Engineering, and the Graduate School of Organic Materials Systems.

List of First-year Advisors (Chief) of the Faculty of Engineering

Department of Polymer and Organic Materials Engineering	Jiro Kumaki
Department of Chemical Engineering and Biochemical Engineering	
(Applied Chemistry and Chemical Engineering Course)	Akito Masuhara
(Biochemical Engineering Course)	Hiroyuki Konno
Department of Information and Electronics	
(Informatics Course)	Muneki Yasuda
(Electronics Course)	Manabu Sato
Department of Mechanical Systems Engineering	Gou Murasawa
Department of Architecture and Design and Building Science	Shinya Sato
Department of Systems Innovation	Hiroshi Katagiri
