

April 2, 2020

To All Students,

Due to the continued spread of the new coronavirus, we have taken the following measures in the new semester in April to protect your health and prevent the spread of infectious diseases.

1. The starting date for classes is April 20th.
2. As a general rule, orientation will be done using WebClass.
3. Reduce face-to-face lectures as much as possible and try to promote online lectures.
4. Minimize access to and from the outside.
5. Thorough disinfection to maintain hygiene.
6. Allow for longer lunch breaks to ease congestion during lunchtime
7. Avoid leaving the prefecture as much as possible, including job hunting

This is our first time making significant changes in class styles, but we put your health first and we will do our best to provide a high-quality education. We are sorry for restricting club activities, etc. For further information, please check the information posted on the website at any time. If you feel uneasy or have any comments, please feel free to contact the faculty staff, advisors, or your student counselor.

Please be careful during your activities in the laboratory, etc., ensuring that ①it is well ventilated, ②you maintain distance from others, and ③avoid conversations in close proximity. If you leave the prefecture for job hunting, please check your temperature every day for one week, and proceed with your studies at home during that time. In addition, in order to avoid traveling as much as possible, please choose options such as a web interviewing, etc., as often as possible. If you feel sick, please contact the Health Management Center or the Health counseling agencies in your prefecture or city.

In addition, please check the websites below, and act carefully to prevent the spread of the new coronavirus.
